
PUMPKIN BANDANA by Lee Alex

LEE ALEX PRESENTS... "THE PUMPKIN BANDANA"

Perfect for all your Halloween and Harvest Festival shows!

Effect:

A black bandana with a pumpkin pattern is shown on both sides. The performer shakes the bandana and the pumpkins fly off into the air. The bandana is shown blank on both sides, save the border and pumpkin leaves. The magician takes a handful of orange pumpkin shaped confetti and throws these over the bandana. Alternatively the bandana can be swept in the fallen pumpkin confetti. Once again the pumpkin pattern appears on the bandana and this can be shown again on both sides as it was in the beginning.

The subtle addition of the bandana's leaf border makes the flash transformation almost undetectable even at close quarters. Suitable for the largest stage and visual enough for street performances, "Zoom" shows, parlor shows etc. Complete with hand-finished satin bandana (approximately 24 x 24 inches, 60 x 60 cm) and a supply of hand cut custom orange pumpkin shaped confetti (enough for many performances). Easy set up and ready to perform any time during your show.

Perfect for scaring off ghosts and ghouls during the Halloween holidays!
