
Amazing Shrinking Deck BLUE by John Kennedy Magic

Bring out a deck of Bicycle cards and remove it from its box. Spread the cards on the table as you ask, *"Did anyone notice that I removed these cards from a tiny box?"* To everyone's surprise you are now holding a miniature Bicycle card box; the poker-sized box is completely gone!

Scoop up the deck as you explain, *"There's no way this deck could fit inside that box - unless the cards were tiny, too."* Spread the cards on the table and now they too have shrunken to miniature Bicycle cards!

Remove a card from the spread and place it aside. Say, *"I can change them back, but it happens quickly so watch closely."* Scoop up the deck and give it a shake - it grows back to poker size right before everyone's eyes!

Point to the miniature card that you placed aside and say, *"Now for the last one..."* Wave your hand and it instantly expands to poker size!

At the conclusion you're left with an ordinary deck of cards to be used for your favorite card tricks!
