
Birthday Candle Repeat by Wonder Phil

A must-have kid's magic routine for any children's magic performer. **Birthday Candle Repeat** by WonderPhil and AmazeKids is an amazing and engaging way to celebrate any child's birthday.

You'll never perform at a birthday party again without "Birthday Candle Repeat" by your side. This birthday-themed version of the classic 6-card repeat trick features multiple amazing magical moments and a kicker ending that will leave even the adults speechless.

The kids will be laughing and screaming as the birthday candle cards you throw away impossibly keep jumping back to your hands. To end the routine, the birthday child is invited to blow out the candles. All the cards that just had "flames" are now "extinguished." It's a visual moment of amazing magic that happens right in front of their eyes.

Birthday Candle Repeat can be customized for ages 2 to 10. It fits in your pocket and plays huge for groups of all sizes both in-person and online.

Comes with everything you need including premium cards, ready-made gimmick and detailed online instructions.
