
CHANGELING by Peter Eggink

"**Changeling**" by Peter Eggink

A super visual, hands-off card change.

A card is selected (signed) by the spectator and returned in the pack. Next, the cards are shuffled and a random card is sandwiched in-between the 2 jokers in such a way that the card remains in full view at all times.

The sandwich can be either placed on the table, card box etc. OR in the spectator's hands...with just a riffle of the deck, visually and magically the indifferent, sandwiched card changes into the spectator's signed selection -this really looks like trick photography!

LOTS of different routines can be done with the cleverly made "**Changeling**" gimmick, e.g. Card to Bill, Color Changes etc.

Each gimmick is hand-build and is ready to go. The "**Changeling**" gimmick can be use in both, a red or blue deck of bicycle cards.
