
3 DECK by Crazy Jokers

"Everything I have seen Adrian Vega do, not only does he always fool us magicians, but he struggles and manages to derive his value to achieve full entertainment of the highest caliber"

- Rocco Silano

In a first glance, this could look as a weird concept, or maybe a weird gimmick, but wait until you see what such a powerful bunch of routines Adrian Vega has created with this crazy contraption.

You show different decks, that are shuffled, and the magician take one of them freely, the spectator calls out for any card, and the selection and everything match. Until here, everything looks amazing, but maybe classic, now it is when you make all the cards from your deck disappear, showing that your prediction, the card that they freely ask for, was the only real card on your hands from the beginning. Two powerful, easy, and unforgettable effects, always ready at your hands, to blow minds.

In this main routine, Adrian Vega will share a lot of ideas, psychology and tips that you can use in your actual card magic repertoire, but also...

You will learn two more different and powerful routines, and a lot of ideas to use it in different shows. Imagine using this in corporate gigs, and introduce the logo or products of the company that has hired you, maybe your business card, everything that can fit inside of it... this is just some ideas!

You will find your favorite one on the complete tutorial, or you will create your own. Make sure you play with this new and fun gimmick, and once you use it in front of your audience, you won't be able to stop performing it.

Remember:

- All necessary gimmicks for the routines are included and ready to go out of the box.
- 3 different powerful routines explained by Adrian Vega with different levels of skill.
- Use it as a complete routine or just as a quick and visual moment for Social Media, Live Shows, Corporate Gigs, etc...
