## Gilded Bicycle Draft - Pokerdeck

The tuck box for the Draft Bicycle Deck emulates a blueprint drawing pad. The black bounding at the top wraps over to the front and back, and the sides graphically feature the individual edges of each sheet. The pencils, eraser and copy treatment on the front complete the drawing pad look in the overall design.

The sketch style drawings utilized in the Sketch Deck's cards (sold separately) are inverted to create a traditional white line art on blueprint grid paper look. To help with gameplay, the Hearts and Diamonds large PIPS contain red borders throughout. To complete the blueprint feel, accent shapes and markings are added symmetrically in each face card. The Ace of Spade and Jokers feature a wood mannequin hand model. They're often used for drawing and painting reference with artists of all genres.

Please note that gilding may wear off with regular use.
