
Hanson Chien Presents WBD (Water Balloon Dropper) by Ochiu Studio (Black Holder Series)

WBD

Make liquid in a glass appear out of thin air.

Welcome to the 3rd project of **Black Holder Series** from Ochiu Studio!

WBD can hold a water balloon up to 50mm in diameter, 60 ml in volume, the dropper can be secured on a belt.

WBD's axial head design allows the device to lay flat against your body at all times, so the gimmick stays perfectly concealed.

WBD's height adjustable clip makes it always stay within your arm's reach.

WBD comes with 4 sets of interchangeable clips (45/50/55/60 mm in diameter), so it can handle most spherical objects.

Liquid may be hard to conceal, but with just a quick tap on the WBD's trigger, you can get your glass of Whisky anytime anywhere.

Say "Cheers!" to the revolutionary **Water Balloon Dropper!**
