
CSTC Version 1 (30.6mm) by Bond Lee, N2G and Johnny Wong

This is probably the cleanest and most magical coin magic you can do.

Authorized by Johnny Wong, N2G and Bond Lee are honored to release this classic and revolutionary coin magic prop and inject more pure Chinese characteristics into it.

This is **CSTC**

You grab three ancient Chinese coins from the air and then let them disappear into the air one by one.

Between the appearance and disappearance of each of the two coins, you can show both sides of the coin and let the audience see that there are absolutely no extra coins in your hands.

Yes! No shell! And you don't need to hide multiple coins in your hands!

Everything is clean, like real magic.

CSTC is available in three versions. With Version 1 you can produce and vanish 3 coins. Version 2 and version 3 allow you to change the color of three coins and then make them disappear.

You can create endless possibilities with this coin set.
