## **Flosso by Chuck Crespo and Magic Smith**

**Chuck Crespo's Flosso** is a classic of magic - but miniaturized and completely organic. Watch the video - seeing is believing.

Right in front of their noses, 2 floss picks link together. Just as cleanly, the flossers magically melt apart - a matter-through-matter that leaves everyone blinking.

For the climax, the 2 flossers unlink by themselves and fall right into the spectators' hands. Best of all, you're left completely clean! You'll love Chuck's thinking behind this - you're so far ahead there's no way they can reconstruct what just happened.

**Flosso** is easy to perform - anyone can do it. You can be carefree with the moves because the prop's foolproof - spectator's can stare directly at the method and not see it - its that clean. Additionally, it can be repeated in front of the same audience as many times as you like without revealing its secret.

**Flosso's** a real head scratcher that leaves your audience's dumbfounded - and convinced you can do the impossible. **Flosso** not only fits in your pocket... it belongs there.

**Chuck Crespo's Flosso** includes all gimmicks plus detailed online video instructions.
