
Perfect Airborne Glass & Acrylic cup (Perrier) by Tejinaya Magic

Pour drink from a bottle into the cup. Suddenly, I let go of my hand holding the cup, but the cup is still floating in the air!

This wonderful magic effect commonly goes by the name Airborn Glass. And with this gimmick devised by "SYOUMA", anyone can do it without fail, and they can do things that they couldn't do before! It is a very stable gimmick that does not use threads on the cup side. The mouth of the bottle is very normal and there is nothing wrong with it, and you can even cap it! You can do it without any stress. If you get used to it, you may be able to do it even blindfolded. Furthermore, the price is also very reasonable!
