Story

As a magician and cardist myself, I've designed these cards to be used. To be played with, bent, abused, and handled every day as a beater. I didn't design them to sit on a shelf and collect dust, but rather to be a deck to practice sleights and flourishes or play games with.

Cards will be printed on United States Playing Card Company premium crushed stock (the Art of Play standard) with tuck cases letterpressed on smooth cover matte stock.

The design of these cards has been an ongoing project since 2017 and has gone through many iterations. Inspired by wizardry and my love for all things magical, this deck is a passion project that is made to be used. I'm excited to get these into the hands of as many people as possible so they can enjoy them as much as I do.

- Wizardry inspired playing cards for the modern wizard
