
Jumbo Safety Pins Through Balloon Silver by Sorcier Magic

A safety pin that replaces the classic needle for the famous effect of the pin through the balloon.

After inflating a transparent balloon, the magician takes a large safety pin and pushes its tip through the balloon.

After demonstrating that the balloon is invulnerable, the needle is extracted from it but intentionally it will burst with the same tip.

Close the safety pin and the effect is complete. Provided with a large metal safety pin 42cm long and 15cm wide and written instructions to create the effect.

Balloons not included.
