## Will Our Minds Merge by Vinny Sagoo

If you have ever seen the classic, 'Will The Cards Match', created by Howard Adams in 1982 and popularized by Larry Becker, then you will LOVE this version.

The cards can be mixed by the magician and then separated into red and black piles (5 cards in each).

A prediction card is displayed with the words 'Will Our Minds Merge', and the magician instructs the spectator to select either pile to spell out the words, starting with 'Will'.

For each letter W-I-L-L a card is taken from either pile and placed on the bottom.

The choice is completely fair and random.

When the word 'Will' has been spelt, the magician takes the top two visible playing cards from each pile and places them aside.

This is repeated with the other words

O U R

M I N D S

M E R G E

The piles are then arranged in numerical order and when the prediction is turned over, it matches the numbers exactly!

For the finale, when the piles are turned over, they are all DIFFERENT COLORS, but in matching pairs.

- Fully examinable
- Self-working
- Easy to do
- Quick reset
- Genuine Bicycle cards

Reviews:

*"This is a great adaptation of the Howard Adam's effect... Vinny's additions really kick it up two notches... and it's a fun little packet trick"*

- **Magic Orthodoxy**
