There have been many variations to Bruno Hennig's classic Card to Box... but none that come close to **Destination Box!**

Effect: You hand someone a locked box. As a finale to your signed card trick, you unlock the box to reveal another box inside. Within this box is a folded playing card. You fairly and cleanly take it out to reveal it is the signed card.

Jon Allen has consistently created some of the most sought-after magic tricks over the past 20 years with the **Destination Box** being at the top of the list. For over 15 years he opened and closed almost every close-up set with it. Many
