
Retro Wave - Pokerdeck

STORY

The 1980's was a legendary decade filled with iconic style & history. Neon signs, electronic synthesizer music, VHS interference, palm trees, video games and fast cars instantly immerse us in the style of those years.

The **Retro Wave** deck of playing cards brings together the best of those themes & nostalgia. Artist Evgeniya Zhade has developed a design with a classic combination of purple hues. The deck is great for magic, as face cards are adapted to the standard image, with the faces & back design perfect for cardistry. The role of the 80s in world history - was a dynamic and, in its own way, a cult time.

Features:

- Style of the 80s performed by Evgeniya Zhade
