
Avi Yap Presents **Wormhole** by Mario Tarasini

Imagine what would it look like if you are able to create a portal on a table, where you'd be able to put anything through it and cleanly vanish it.

That's **Wormhole**.

In June 2020, Avi shared an Instagram video of his take on Mario Tarasini's vanishing card. It quickly left a strong impression on thousands of viewers in our community.

People often say simple hits hard. That's a great way to describe **Wormhole**.

The method of **Wormhole** is so bold but with Avi's personal touches, handlings and tips, you can vanish, transfer, color change ANY CARD like you are truly passing through the portal. You are even able to perform TNR card effects with **Wormhole**.

Wormhole comes with a ready to use gimmick and online instructions. Avi leaves no one behind, in the instructions he will go through everything on how to perform like how he does.

If you like visual table card magic, **Wormhole** is for you.
