
P-lotto by Michael Murray

"This is an amazing effect. Really strong!"

- **Javier O.**

"I don't do a lot of mentalism but everything Michael puts out gets my attention. Plotto is another brilliant piece from MM, and Plotto is a killer routine for Parlor shows. Love it!!!"

- **Brian O.**

"Just received mine in the mail today. What a thing of beauty these cards are! Another well thought of routine by Michael! Don't pass on this item. It really is a great effect, and the quality of these cards are perfect!"

- **Rick**

If you are looking for a close-up lottery prediction effect that packs small and plays huge then look no further. Fresh from the mind of Michael Murray comes an incredible approach to a much sought after routine.

The participant shuffles and mixes a deck of lottery cards thus emulating an actual lottery machine. After doing this they are invited to freely choose six cards from the shuffled deck. Despite being given every opportunity to change their cards throughout, the conclusion of the routine sees the exact six numbers that the participant has chosen printed across the genuine lottery ticket that they have been given to hold at the very beginning of the routine.

Best of all, this routine is super easy to do and was an instant hit at the recent Blackpool Magic convention!

Comes complete with custom printed lottery deck and a hard plastic card case to keep your deck safe between performances.

Note: This deck is designed for six number lotteries with numbers ranging from 1-59. No lottery ticket is supplied with this item.
