
The Rebel Wallet Elite by Secret Tannery

The Rebel Elite is the latest version in the Rebel wallet series.

This card to envelope in the wallet is crafted to the highest standard.

An all new colour combination of navy and tan leather, custom lining, credit card slots, a coin pocket and a currency compartment that will fit almost every currency. This wallet has everything you need to act as an everyday carry.

Not just a pretty accessory, this wallet has the same loading system as the other Rebel wallets. It's surprising how slim the wallet feels. The loading area is a unique design to the Rebel wallets, no outside pockets or cuts in the leather so you can be confident in handling this out to spectators. This is the smallest card to envelope on the market and the only wallet that you can set up right in front of the spectator! Use as a hip pocket or jacket pocket style wallet. Comes with gimmicked envelopes (bonsolopes) and special glides. The wallet also works with medium size bonsolopes which can be purchased separately.

If you're not the envelope loading type, don't worry! The Rebel is a great card to wallet without using an envelope!

Perform in Style!
