
P TO P PADDLE: CHOCOLATE EDITION by Dream Ikenaga & Hanson Chien

In 2009, Dream Ikenaga from Japan created **P to P Paddle**. This effect can make the chocolate on the biscuit stick vanish, appear, change, and transport! This genius idea takes the classic to a new level.

In 2015, Hanson Chien created the same effect for YIF based on this idea. But the difference is you can eat everything at the end.

Now, latest version of **P to P Paddle** is presented to you. The gimmick looks highly realistic, and Hanson also teaches you how to use real biscuit stick to perform this trick.

P to P Paddle comes in two versions - **Standard** and **Deluxe**.

Standard Version - comes with 1 set of gimmick.

Deluxe Version - comes with 2 sets of gimmicks.

You just need to make your own choice.
