## **MULTI EFFECT NET by Mago Flash**

It is a net to catch butterflies where objects magically materialize. The net can appear or materialize 4 coins together or falling one by one at the will of the magician. A ring can also appear for magic routines for adults, as a candy for magic routines for children, etc. In this new magic game you can do multiple routines like Miser's Dream, Signed Coin Trip, Always 4, Metalism and many more. Always in an original, visual, clean, transparent and easy to do way.
