## **P3 Luxury Variety Box 2021 - Pokerdeck**

The luxurious 6-pack box is made from soft-touch black paper that has gold foil on the outside with silver foil on the inside, and a custom cutout in the lid to view the decks.

When you open the box you'll find one deck each of Ace Invaders, Succulents, Yellow Honeybee, Black Honeybee, Robots, and Tucán. The cards are printed by USPCC and feel as great as they look.

The individual tuck boxes each have new custom artwork, foil, and are printed inside and out. Each tuck box is topped off with matching individually-numbered seals.

This set must be seen in person to truly appreciate the beautiful shine and textures that have been used in the creation of this luxury collection.
