
Appearing Die by Tony Karpinski

The **Karpinski Die Appearance** is a utility device designed to be used in conjunction with the Karpinski Die Box.

This prop allows the performer to cause the die to reappear in an impossible location (rather than the standard reappearance location of inside the top hat of the performer's case). It has been crafted from walnut so as to match the Die Box aesthetics and facilitates the reappearance of the die after it vanishes from the Die Box.
