
Signed Card by Dominique Duvivier

A card is chosen and lost in the deck.

First, the magician finds the card.

Then the spectator finds his own card!

Even more amazing, the face of the card disappears: it becomes entirely blank!

It then reappears face up in the middle of the deck (it is indeed the signed chosen card!) and all the other cards are now completely blank.

Strong points:

- Totally amazing
- Numerous effects
- A very surprising climax
- Cards in Bicycle quality
- 2 decks provided

Bonus: "Signed Card + Version"

In this "remastered" version, all the cards are handed out for examination at the end of the routine, which was not the case in the "classic" version.
