From the popular Despicable Me franchise, Minions have gained a massive amount of popularity worldwide with their adorable appearance and voices. The cute yellow torso with goggles and blue worker outfits have become a signature of the Minions. On the back design of this deck, you can see the iconic goggles wrapped across the yellow back design. Fun fact, yellow is not only their color but also the color of their favorite food - Banana. Throughout the entire deck, you will find these Minions everywhere! They really enjoy being a part of this deck, from hiding in the suits to taking over the court cards.

According to their story, they exist only to serve their master, with 52 of them being in this deck. You can now have your group of Minions forever!
