
Yukon Cornelius by fig.23 - Pokerdeck

YUKON CORNELIUS AND THE MISFITS is a flip-book animated, poker-sized deck of playing cards by fig. 23, designed by Stephen W. Brandt.

It's based upon the classic television special, "Rudolph the Red-Nosed Reindeer," taking advantage of the public domain status of many of its characters.

It is manufactured by MPC (China) and comes shrink-wrapped in a 100% recycled paper box.
