
Snowflake Vase by Leon and Leno

Snowflake is one of the most beautiful and elegant things you can produce in your stage act.

Here, Leno and Leno present you a perfect tool to give your audience a dream experience - **Snowflake Vase**.

Snowflake Vase is a powerful device designed to blow the snowflakes up to about 1.5 to 2 meters high. It will do the work for you even when inserted the rose. So you can do your rose routine with an extremely beautiful ending.

Snowflake Vase looks smooth, natural and real. It is an elegant looking prop, and its clever electric inner workings make sure the snowflakes will be blown up beautifully.

Different from other snowflake blowing device on the market, **Snowflake Vase** is much easier to carry and can blow the snowflakes without any extra mores. Therefore it can be used in various stage routines and can be a great tool in your own magic creations.

The product includes the gimmick vase, the charger and online instructions.

Be ready to amaze your audience with the **Snowflake vase!**

Important tips: Every blower device in the market has the voice, our vases are no exception. This vase is not for close up and parlor, only for stage magic with using the background music.
