
FIRE BULLET SINGLE / RIGHT HAND by Sun

Anyone would have imagined a gun firing from their hands. And there have been many similar devices. But there was no perfect device, and we were able to build one after long research.

The fire bullet is made to fit the shape of your hand as a perfect grip! It is operated by a double switch method for the safety of performers, and is designed so that the fingertips will not be damaged.

It is also easy to use and no tricks and moves are visible to the audience. There are wing gripper for perfect aiming, and holes to use reel for sleeve.

Double version can be fired separately, and it can be operated very simply during the performance.

What's in the box:

- **Fire Bullet**
- AA battery
- Instruction QR code

Note: Flash cotton is not included.
