## Carat FBB Full Brick Box (pack of 3)

Introducing the **Carat FBB Collapsible Brick Box**, a better and more cost efficient way for safely storing/transporting 12 decks while allowing for full view of the contents inside without opening any boxes.

The FBB has a Roll End Tuck Front (RETF) design, which when assembled, creates a tray-style box with a hinged lid that securely tucks into the front using tabs that insert between the roll-end side panels, aka the 'mailer' box. This style box was chosen to prevent the lid from being accidentally jarred or forced open, giving you more peace of mind when moving or transporting boxes around.

When assembled, the **Carat FBB** has dimensions 23.0cm x 9.6cm x 6.8cm and is made of 0.5mm thick PET plastic to provide good protection for your decks while allowing you to clearly see everything inside from all angles.

The **Carat FBB** is extremely light, weighing approx. 96g or 3.4 oz. and comes unassembled to make it easy to ship. Once ready to use, simply peel off the protective film on the outside and fold the flaps together to create the brick box.

For storage, it is sturdy enough to be able to stack on top of each other when fully loaded with decks and can easily be stacked up to 5-6 boxes high without crushing the boxes or the decks inside.

With the **Carat FBB**, you no longer need to open up a dozen boxes before finding the deck you are searching for, you'll be able to find it in a glance!

Carat Card Cases by Carat Case Creations are the preferred playing card storage and display cases of discriminating collectors, designers and playing card manufacturers. Carat Case Creations has worked with many of the top designers and companies to create custom cases, including; Butterfly Playing Cards, Cartamundi, Chris Ovdienko, Expert Playing Card Co, Jackson Robinson, Lee Asher, Midnight Playing Cards, Mint Playing Cards, Rick Davison, Stockholm 17, Thirdway Industries, Tru-Card, Vanda Playing Cards and many others.

### HIGHLIGHTS

- Made of 0.5mm clear PET plastic to provide lightweight, robust protection

- 
- for your decks when storing them
- Simple and fast assembly
  - Stackable
  - Points to note
    - There is a protective film on the outside of the BBS
    - It is best to pre-crease all tabs (bend them inwards and then outwards) before assembling the brick box

## PRODUCT SPECIFICATIONS

- Materials used - 0.5mm PET plastic
- Weight - 96g or 3.4oz
- Dimensions (unassembled):  
22.7cm x 16.2cm x 0.4cm
- Dimensions (assembled) - 23.0cm x 9.6cm x 6.8cm
