**Inception Playing Cards** is our modern-day approach in celebrating our origins: from the fierce warriors to the social classes, combat weapons to the traditional clothing, and mythical creatures to the national symbols - a culture worth telling.

Created by combining unconventional shapes forming a familiar set of images - igniting imagination fueled by excitement, these seemingly inconsequential discoveries form part of a memorable experience: a grand revelation hidden in plain sight.

With over a year in the making, every aspect of the design was created from the ground up - from the court cards to the aces, tuck, and numbered stamp seal. Even the packaging texture has been carefully selected that perfectly complements the overall design.

Inception is the first installment in the Creations Trilogy.

### **Premium Playing Cards**

Printed on premium crushed stock with embossed finish, and traditionally cut for superior handling, preferred by cardists, magicians, and card enthusiasts.

### **Quality Tuck Packaging**

The cards are secured inside a tuck box that features a wrap-around design with a card-like texture; safely sealed within by a numbered stamp featuring an iconic mark.

### **Anamorphic Back Design**

---

Experience the wonder of discovery. Composed of seemingly unusual shapes forming a familiar set of images, where one trivial discovery will lead to a successive larger discovery, and eventually, to a grand reveal.

### **Fully Custom Cards**

Featuring a fully custom artwork for each court card, numbered cards, aces, and jokers, without detaching from the playing card familiarity we are accustomed to.

### **Manufactured by the World's Best**

Printed by The United States Playing Card Company (makers of the Bicycle® brand) on FSC®-certified paper derived from sustainable forests using vegetable-based inks.
