
A BAR KADABRA by Quique Marduk

Created by Quique Marduk, this effect is great to be performed at close up or parlor, and perfect if you are a magic bartender. Could be performed surrender and his new gimmick has a lot of possibilities.

The magician asks a spectator to choose a drink among three that he mentions, for example, orange juice, red wine or mint liquor.

When the spectator chooses his drink, the magician hands him a pack of white cards with a glass printed on them.

The spectator is asked to paint the glass as if it were filled with the chosen drink, for example, wine, and to put his signature at the bottom of the glass.

The magician removes the sheet face down and keeps the rest of the cards.

The card is rolled up and from within, the magician produces red wine, which he pours into a small glass. Now the magician shows the sheet and there is the signature on it, but the printed glass is empty.

You receive all the necessary gimmicks, a pad of printed cards, a real glass, instructions with a video to be downloaded and a PDF file to print your own cards.
