
JACKO CANDY by Magic and Trick Defma

The funny silks collection are silks with unique and exclusive designs of magic and trick, they can be used in different ways and with different props (thumb tip, various kinds of change bags, Z bag, etc.) or without them (like the Card Silk routine).

They are made from a resistant and manageable material which can be compressed for different uses.

Includes:

- One silk with an empty pumpkin candy bucket (14,5" x 11")
- One silk with Jack-o'-lantern full of candy (14,5" x 11")
- One silk full of candy(10.5" x 7.5")
- Link with instructions

Start the routine by showing a silk with an empty (and a little sad) pumpkin candy bucket.

The silk is put aside and you tell the spectators to start throwing imaginary candies to fill the pumpkin and by catching with your hand, a silk full of candies appears!

Put the candy silk into your hand and vanish it by throwing it into the empty pumpkin.

When the empty pumpkin silk is revealed, it has now transformed into a pumpkin full of candy!
