
ROUDOLF PADDLE by NOX

Rudolf Paddle gives a special touch to the "Paddle Move" thanks to its visual impact, since the viewer literally sees how a ball comes out of an image and then magically returns to it. You will receive a beautiful high quality palette of about 6 inches where you will see the most famous reindeer with its characteristic red nose on both sides, then you can literally remove its nose turning it into a red ball which you can return to the reindeer in a magical and very visual way.
