
Six Outs by Blake Vogt

Have you ever wanted to fit SIX different outs inside ONE piece of paper? Well now you can. As seen on James Corden, this is the gimmick Blake used to predict where three people sat on stage. "**Six Outs**" is an ingenious gimmick that appears to be a single piece of folded paper but it actually contains SIX different outs. This gimmick comes blank, which means... you can write ANY six outs you want for ANY routine you can think of.

What you get when you purchase "**Six Outs**" is a blank unit and a blank envelope as well as an instantly downloaded video where Blake will take you through step by step how to fill in your gimmick. He will also include ideas for different routines as well as explain how he used it on James Corden.

"**Six Outs**" is the ultimate utility tool that you can add to your stage repertoire today. Finally, you can make those routines you've created a reality with this. This is "**Six Outs**".

Each gimmick is handmade out of durable water proof and tear proof Tyvek. Gimmick dimensions - Closed: 4" x 5.5" - Opened: 8.5" x 11" (Sizes are approximate estimates as every gimmick is slightly different since they are made by hand.)

Hand made by Blake Vogt.
