THE FINGER BIRD by Chazpro Magic

FINGER BIRD, A Chazpro Magic Classic!

Out of production for many years and back again!!

Finger Bird - A Chazpro classic! This cute bird will baffle your spectators as you make it sit on your finger or a pen or pencil. Spectators can try and the bird will fall. Another effect is to 'hypnotize' the bird, laying it on a table, on its back. On command (or when a spectator's card is dealt, etc..), it will situp. The bird measures approx. one inch long. Includes instructions, special bird and extra secret prop.

There may be slight differences in the birds based upon the manufacturer's specs. All birds however are well made.
