
CARDIOGRAPHIC RRP by Martin Lewis

Our stage size Cardiographic is now even more performer friendly. Introducing the **Cardiographic Rapid Reset Pro**.

Built for the busy working pro, utilizing the very latest materials technology, it works exactly the same way as the signature version but it **RESETS IN SECONDS** instead of minutes.

It uses paper more economically: The refill pack comes with 24 (6/7H and 6/5D) sheets for 24 shows.

The package includes; the sketchpad, 24 refills, 1 very special pen, and downloadable video instructions.

Extra refills and replacement pens are readily available.

Reviews:

"I have to say this thing is so well thought out it's pretty goddamn amazing! There's just so much great about this trick I don't think any trick is stood to test of time this long and kept getting improved and now it's at the pinnacle. I don't think there's ever been a trick in old magic or modern magic that isn't been improved to the point of perfection like this one has!"

- James Dimmare

"Your new Cardiographic arrived today and I don't know what to say - you took my breath away!!! You have truly taken one of the best magic routines that you created many years ago and elevated it a level that makes it something every magic performer will want to do. The reset is a workers dream!!! I now no longer have to prepare this prop between shows and when working gigs where I've got a small amount of time to prepare this truly is the ultimate version."

- Paul Romhany

"Martin, back in 2002 I performed your cardiograph in a bunker in Afghanistan while getting shelled by the Taliban. I would often do magic in the shelter outside our tent during the mortar attacks. That story has been a staple in my act now ever since. This is such an amazing improvement! I will be purchasing it immediately."
