## Hidden Bullets (Kissing) by David Alan Magic

The ultimate rope magnet! Encased in stainless steel and N52 strength. It is the strongest rope magnet on the planet.

A magnet system shaped like a bullet that kills every time!

Available in "kissing" (surface to surface) or the new "Coupling" system that allows the rope to bend freely!

*"Hidden Bullets is everything a rope magnet should be. They attract the ends together perfectly, are strong, yet come apart with ease. Such an ingenious solution for rope effects that remains hidden from view."*

- **David Caserta**
