# Jalapeño - Pokerdeck

## Jalapeño Original Chillies

Not for the faint hearted, designed for the brave. Chillies are printed on the iconic Slim-Line stock with Premium B9 finish by Cartamundi, a quality that brings a heat so intense, you will be excused for keeping these sealed.

Firing up standard based courts, each deck honours traditional faces with added spice and flavours. All Chillies come with two jokers and two gaff cards.

Within each Original Chillies tuck, you will find hidden influences from Mexican Design and Maya Culture. Each tuck in the series reveals part of a hexptych image that celebrates our favourite spicy fruit. Just don't add these to your food.

Designed by Stephen O'Neill, the backs of this series pay tribute to his background in pattern design and love for monochromatic colour palettes.
