
The Ultimate Tossed Out Deck by Wayne Dobson

Wayne Dobson's **UTD** is one seriously clever deck for the mentalist/mind reader.

Whether you are a close-up worker or stage performer, hobbyist or pro you will love '**UTD**'

Imagine a tossed deck that can be examined and shuffled. A tossed deck that works equally good close-up as it does on stage.

A tossed deck that allows you to name the exact card each spectator is thinking of.

"UTD is the best version of this effect I have ever seen and highly recommended to all of our students at Mystery School"
