## **EGG BAG BLACK by Bacon Magic**

**Egg Bag** is a really great trick. Good tools are essential things, a good egg bag will make your performance even better. This seemingly ordinary bag actually contains a lot of design details, if you want to make a good egg bag, you need to consider many factors such as cloth, stitching, size, gimmick and so on. Now, after five years, a new remake of the **Bacon Egg Bag** is officially released!

### **Cloth:**

The cloth of **Bacon Egg Bag** is carefully selected from more than ten kinds of samples, soft feel, fine weave, wear-resisting and durable. It ensures that the fabric has enough drape and great texture while minimizing the degree of reflection as much as possible (too much gloss will reflect the outline of the egg in the bag). In addition, the cloth we choose also has excellent wrinkle resistance, even if it is kneaded into a ball can also be quickly restored flat, not easy to produce wrinkles.

### **Workmanship:**

**Bacon Egg Bag** has exquisite workmanship, precise cutting, neat sewing line. There are three layers of cloth on the side of the gimmick. In order to balance the two sides of the bag, the other side of the bag is also sewn by three layers of cloth. That is to say, this light and supple bag is actually sewn by a full 6 layers of cloth.

### **Size:**

The size of **Bacon Egg Bag** is 18cm x 21cm, it is just right and can be used to easily perform all kinds of tricks.

### **Gimmick details:**

Other types of egg bags on the market are basically made of single-layer cloth, these egg bags are easy to be folded a few millimeters at the edge of the gimmick, which leads to the edge of the gimmick with a thick "edge". When the audience reaches into the bag, they are likely to feel the presence of this strange edge directly, and even see the shape of the edge from the outside of the bag. But on the **Bacon Egg Bag**, the edge of the gimmick adopts invisible stitching

---

technology, the edge of the gimmick is smooth and non-mark, and it is flat and attached to the outer cloth.

**Identification mark:**

**Bacon Egg Bag** adds a circle of imperceptible "decorative" stitches in the corner with the gimmick side. You can easily identify the position of the gimmick by "looking" or "touching". You don't have to worry about forgetting which side the gimmick is in halfway through the performance.

**Teaching:**

**Bacon Egg Bag** comes with online video teaching to help you quickly master Egg Bag skills and have your own egg bag routine.

In order to facilitate everyone's practice, each set of **Bacon Egg Bag** is presented with a very realistic wooden imitation egg.
