
Cactus Standard - Pokerdeck

A new twist on a classic style. The **Sunset Red Cactus Standards** hold a familiar image with a splash of Arizona. This is the third deck in the Cactus Playing Card lineup and by far the most versatile. On the back you will find the majestic Saguaro cactus framed by the night sky. Classic western and desert styles, fill the rest of the design along with the original Cactus Icon logo. Make sure to grab a deck or two for your next game night or magic gig!

The tuck box displays the large spade pip on the front, and the back design on the back. All around the edge of the box you will find a pinstripe of blue and white. In between the lines is the rest of the info for the cards (along with a lovely spelling error in the word 'Playing'). When opening the tuck box you'll see a 'three of clubs' reveal. This deck holds a few more secrets, but only the curious will find them.

Printed on USPCC classic stock
