Fine printing and embossing foiled tuck box.

We combined the printing techniques and embossing process to complete the production of the tuck box, the card box has gone through 8 processes of production procedures, the combination of foiled lines and illustrations makes the tuck box extremely luxurious and exquisite.

The ARK team has also tried to make use of the tiny space inside the card box keeping the same luxurious feel like the outside. The inside of the tuck box uses a green gold foil pattern. When you hold the card box, you will feel the aesthetic of harmony and unity inside and out.

All ACEs, JOKERs as well as Court cards are completely customized. The illustrations are drawn using the classic Sgraffito painted technique. Each illustration was first drawn and colored carefully on the paper and then using high-precision scanning transferring into digital images, the whole process took more than 100 days to complete.
