Linking Onion Rings by Julio Montoro Productions

Chinese linking rings have been one of the most performed effects over the years. In 2017 Julio Montoro came up with the idea of performing it using something everybody is familiar with: Onion Rings.

After years of improving the gimmick and the handlings, we are proud to introduce you to **LINKING ONION RINGS**. This is the best effect you can perform on social media to make your magic look as organic as possible.

 With **Linking Onion Rings** you will receive two realistic gimmicked onion rings that look as if they were real ones and a tutorial that will show you the handling step by step to make it look so visual.

This is **Linking Onion Ring** by Julio Montoro.
