
MIGRATE DLX COIN by Dr. Michael Rubinstein

Are you tired of the same old coin tricks that only last for 30 seconds to a minute? Do you want to add true variety to your act? Do you want to perform a memorable showpiece? Then you want Dr. Michael Rubinstein's NEW coins across routine, **MIGRATE!**

What makes this coins across routine different?

- It is a comedy routine lasting over three minutes with audience interaction.
- It uses interesting props.
 - And it's all about...BEARS!
- The script is filled with enough bear puns to keep your audiences of all ages howling with laughter.
- No special gimmicks needed! Just sleight of hand and cool new moves combined with a wonderful presentation, all clearly explained in the 53 minute tutorial.
- There are two versions available. The **Poker Chip Version** comes with specially made bear poker chips with either a tan or brown soft bear purse. The **Deluxe Version** comes with beautiful replicas of the 1925 California commemorative half dollar, along with a beautiful leather bear purse.

Poker Chip or Deluxe Version, which is for you?

Here are the BEAR facts:

1. Both the Poker Chip and Deluxe versions are ideal for strolling or table hopping, but because the poker chips are larger and don't reflect light, the two different bear designs on the chips can also be seen by an even bigger crowd (such as in a small room or busking).
2. Poker chips can be seamlessly inserted into any type of show because they are different, while the beautiful replica 1925 commemorative half dollars in the Deluxe version handle well and are great for close up. Additionally the coins are made to look old, but they can be polished if desired to remove all the tarnish or to make just the design stand out.
