
Speed Loader Plus Wallet by Tony Miller and Mark Mason

The method of the loading system is 100% unique. I have only ever seen this on the Speed Loader Wallet.

What do all magicians want from their card to wallet? To be able to load it fast and smooth, with zero fumbling. Tony's creative method has answered every one of these questions. No slides, nothing to ditch, no weird-looking pockets. The wallet itself is the loading system.

Trust me, you will love this wallet. They are made from top-quality leather. This is a hip-sized billfold wallet, it fits into any jeans pocket, pants pocket or in your favorite jacket.

The **Speed Loader Plus** can be used as your regular wallet, it holds bills and credit cards.

Comes complete with a URL link that directly takes you to eight incredible handlings.
