
COLORED Split Cards 10 ct. (Green) by PCTC

You bought a new effect and you don't know how to split a playing card to make the special gimmick/card?

Jordan Victoria made it for you!

Each envelope contains **10 SPLIT CARDS (Green Rider Back)**.

A playing card is made out of 3 layers (face, glue and back). We provide only one of those 3. The one you chose will be the THIN layer.

You'll be able to make your own gaff in a few seconds!

An online video comes with each pack of **SPLIT CARDS** to learn how to make your first gaff cards (and how to use them).

So... CUT them, TEAR them, GLUE them,.... and make your gimmick come to life!

NOTE: Due to the special glue used by the USPCC, FACES are thinner than backs. You'll receive more transparent cards with faces than backs.

INCLUDED IN EACH PACK:

5 classic ideas to begin with your **Split Cards**.
