## The Seers Magus Sanguis - Pokerdeck

The **Seers Magus Sanguis** is a deck designed for magic and card games and is a homage to the original Seers V1.

It's faces are custom but still resemble standard poker cards so that they are instantly recognisable to spectators.

The poker style back design of the Magus are detailed and refined. This makes them visually appealing as well as more convincing for magic and games. This design style is continued on the tuck box. With the same baroque curves and striking design.

As this is a magic deck, we included two gaff. Two additional Queen of Spades. One holding a Magus playing card and the other holding the Six of Spades. There is also a Six of Spades reveal on the tuck box
