HOW TO READ MINDS...

REVEALED FOR THE FIRST TIME

90 DAY, IRON CLAD *MONEY BACK* GUARANTEE!

You might be going something like this...

"This is fake. This can't work. Look at these claims. I'll never be able to do this."

We know because we've been there. And we don't fault you. But we can end that voice in your head. First, remember one thing. This is all we do, is teach this stuff. We've done it for two decades and have taught over a million magicians. Some of them are on TV. We've taught many of the magicians you see on America's Got Talent.

This kit WILL BE everything you hoped for. We already know it, and so we'll put our money on the line... instead of yours.

Have you seen those return it "within 10 days" policies? It's the standard, but we never thought it was enough. You barely have enough time to get it out of the package!

So go ahead and take a full 90 days...learn a few of the best tricks. Go to Sunday dinner with the family and read the minds of your Mom and sisters. Read some minds in the office. Go to the bar and win some drinks. Get acclaim.

If How to Read Minds doesn't do everything we say it will, send back the kit within 90 days and Ellusionist will refund every cent of your hard earned money (minus shipping).

Over 3000 buyers (and rising every second) can't be wrong. So that's 100% of the risk taken out of it and there should be nothing stopping you

"2 days after watching the last video, I've had 2 people buy me drinks and one (very kind) lady treat me to lunch."

- **Seth**

"Best Magic Kit I have ever bought!... You will never find anything like this again."

- **Marting**

The breakdown of a reaction...

Think about what it takes to put **this** kind of expression on someone's face. What does it TAKE? Find out someone close to you has died? A car coming at you head-on? Or discover a stranger knows a **myriad** of your **personal details**? We walked up to that woman on South Beach five minutes before that picture was taken and she was happy as a lark.

You have to understand that you are playing with the human mind. The mind goes deep into all corners, but is in many instances predictable. Is this manipulation? Or just **pre-knowledge** of the **way people behave in normal life**, and using that knowledge? That's the skill you will develop. You will watch as knowledge of human psychology pays the price time and again...and gets the reaction.

YOU NEED TO PLAY THE OPPONENT, NOT THE CARDS

What separates the good players from the great is their ability to recognize what level their opponent is thinking on and adjust their strategy accordingly. This kit is a razor course on discovering the level of thinking that the vast majority of the general public is on, and how to **play that level** for shock and amazement. This is where Pete Turner excels, and what he teaches in the course. But, you decide how much you will delve into the subtleties he teaches, the video clocks in at over 8 hours of teaching, all included with the kit. This is a master class in psychology. It's been said over and over (read the reviews) that no expense was spared in the development of the material and props in this collection.

And here is the path the reaction almost always takes...shock... disbelief... awe.. and finally...utter respect. When we say people want to buy your drinks for you,

that's not hyperbole. Because they feel you have delved deeply into them, **seen** things that others **haven't seen**, they feel *closer*. There's a level of intimacy that takes place inherently. It happens **time and again**. The least they can do for you is get a round of drinks. You'll see. And it won't take long.

The How To Read Minds Kit is LIFE CHANGING. Open the box and **discover**...what these secrets **do** for you. Who knew that a hundred bucks plunked down for a kit could do **so much**? Who knew...

WE DID.

BECAUSE WE'VE DONE IT FOR 20 YEARS.

Ellusionist has trained more professional magicians and mind readers than any other company in the world... including many of the ones you see on TV. Our reputation for having the most effective training in the world is untouched. Beginner all the way through pro level.

We've existed for two decades and we've been busy in that time. Ellusionist followed the path of the intuitive, the glam-packed, but NATURAL way of "styling" magic. We made magic what you see today. Gone are top hats and tails, gone are the doves. Let them fly back to the 50's where they came from. We put the magician on the street in jeans and a tshirt, **doing miracles**. We made magicians into STARS. What if we could do **even a little bit of that** for you?

Magic, and more importantly mind-reading, is meant to be done naturally, almost as an afterthought. Let it just "occur". Set it up, **lead** people, let them ask for it. Let your miracles out of the box *slowly*. There's no need to pound the table for attention. In fact, you'll never do that again. From now on when you speak, people listen. You will remain connected to those around you, but on another level.

SHOOT YOUR SHOT. CHANGE YOUR LIFE.

You know those basketball games where they pick someone out of the crowd at halftime and give them a shot at the basket for some \$50,000 prize? Can they get the ball in the basket? If they do, their life changes. The butterfly moves it's wings in America and life changes in China. The crowd waits on pins and needles. The "player" shoots their shot and everybody draws a breath and holds it.

Shoot **your** shot. The box is guaranteed or your money back, so what is there to lose? What **might there be to gain**?

"This kit is worth 100 times what it actually cost."

- **Aaron**

"This is the simplest stuff anyone can perform and yet it yields the most amazing results and reactions."

- **Manny**

IS THE KIT WORTH \$119?

If we sold everything that's packed into this kit separately, it would be priced at over \$250 for what you receive. At \$119, this kit is already a steal.

But maybe look at it this way...

Even if you picked JUST ONE trick from this WHOLE kit, and it became your party trick at family gatherings, at the office etc. All you ever did was ONE incredible mind reading stunt that nobody knew HOW you did. Would THAT be worth it?

But what if you did 5 of them? 10? What if you get good at ALL of them? What if you carry the abilities from this single kit for the rest of your life and wherever you go in the world, you AMAZE people with it? Would that be worth \$119?

Let's say you go out to the bar once per month, for the next 20 years and never had to pay for a drink because of the techniques you've gained from this kit.

You would have saved yourself an average of \$12,000. *Probably more...*

TAUGHT BY THE WORLD RENOWNED PETER TURNER

He fooled every single person he met whilst shooting this project in Miami, including the crew.

Now, for the first time, he'll give those secrets to you... and they're simpler than you think!

Although he won't like to admit it, Peter (Pete) grew up as a shy kid with no confidence. He created and self-taught the skills required to break out of his shell and shape the world around him.

Pete went from somebody nobody knew, to somebody everyone wants to know.

Legend states that he hasn't paid for a drink since 2015 (unverified) and it's clear to see why.

With the secrets he'll share with YOU in this kit, you can be that person too.

He could have simply collected a pay-check, but Pete loves to share. Each technique featured within this kit has been injected with Pete's infectious passion for mind-reading. Every nuance is covered in simple terms. So you can be sure that you'll never miss a step.
