
Mutineer Black Spot - Pokerdeck

Mutineer: Black Spot Playing Cards are an unconventional, walrus-and-carpenter-esque look at piracy with an unhealthy helping of dehydration hallucination AND an extra spoonful of terror, as the crew is now handing out the BLACK SPOT!

Black Spot is a second deck in the Mutineer line, with a completely black back. The faces are the same as standard Mutineer decks except for a major change: each card has a unique "black spot." But not just a spot-this is madness, after all! Each and every card is plastered over with all kinds of ink blots, graffiti, ephemera, kitsch... a glimpse into the terror-fueled visions seen by a delirious pirate who's just been given a death sentence. Comes in a completely black premium matte tuck with a custom seal.
