
Aurora Borealis by Paul Gordon

Back in the day, NICK TROST and ALDO COLOMBINI both RAVED about Paul Gordon's **Aurora Borealis**.

Back in 2001 it sold out very fast and due to the nature of the stock it wasn't able to be reprinted... until now! It's back and better. Top-quality linen cards. Bespoke cards!

Effect: Four black-backed Ace of Spades do various gyrations and finally all four change back design and colour. It's a startler! Only a small thin packet of cards is used and no r/s. Online video tutorial.
