SMOGGLER PRO by CIGMA Magic

After years of experiments and refinement, we are now presenting to you the most reliable and stable remote-controlled smoke emitting device - **Smoggler Pro**.

Tailored for stage performance, **Smoggler Pro** is highly versatile and has infinite applications. The powerful effect will definitely bring your act to the next level. **Smoggler Pro** allows for bigger bursts of vapor, yet its miniature size makes it easy for concealment, ensuring satisfying user experience.

Like other products in the Smoggler series, **Smoggler Pro** is also equipped with gravitational mechanism. It can be triggered by either a remote control, or better still, by simply switching on gravity mode, activating the device with body movements. This keeps your hands clean and free all the time, and make your art looks too natural to be true.

The brand-new charging technology shortens the time needed for a full charge to only 10 minutes. Wait just for a few moments, and you'll be well set to go.
